

10.0 SS TENDER

sealboatsusa.com

All Aluminum ★ All Welded ★ Unsinkable ★ Tough & Rugged ★ Low Maintenance

“The Last Tender You Will Ever Need to Buy!”

10.0 SS Tender with 15-HP Yamaha, 4-stroke outboard motor.

SEAL™ BOATS USA

SEAL, which stands for **SEA Aluminum**, aptly describes our all-aluminum, all-welded, finely-crafted boats. SEAL™ Boats are tough, rugged, durable, virtually unsinkable and practically indestructible. The design-patented hulls are made of the highest quality marine/aircraft aluminum, and the all-aluminum sponsons are entirely filled with 33 cubic feet of U.S. Coast Guard approved foam flotation. Sharp objects such as knives, cleats, fishing gear, boots, docks, oysters and bottom objects are not a problem for these boats. SEAL™ Boats are also incredibly stable and virtually impossible to capsize or flip over. SEAL™ Boats bring you all the benefits of inflatables, without all the hassles. SEAL™ Boats are self-bailing, and the all-welded aluminum construction requires almost no maintenance. Best of all, SEAL™ Boats are beautiful, finely crafted vessels that you'll be proud to own.

Precisely engineered using the most advanced computer-aided, perimetric solid modeling, SEAL™ Boats are built with the finest marine aluminum metals and the best marine hardware

available. The all-aluminum hull is water-jet cut to ensure precise fitting of all parts. The boats feature all-welded construction – no rivets or bolts are used in the hull construction. The SEAL™ Tender line has 10-ft., 12-ft. and 14.5-ft. tiller models, plus 14.5-ft and up center console models. SEAL™ Boats are available in marine-grade, powder-coating in your color of choice, powder-coating with metallic finish, natural non-coated aluminum and Gator-Tuff™.

The 10.0 SS TENDER is designed for electric start engines. The bench seat has a battery box with on/off switch, built-in electric fuel gauge, and automatic bilge pump. The 10.0 SS TENDER has a 12-gallon fuel tank and ample storage below deck.

SEAL™ Work Boat line is available from 10-ft. to 39-ft.
SEAL™ Tender line is available from 10-ft. to 20-ft.
SEAL™ Yacht line is available from 21-ft. to 39-ft.

10.0 SS TENDER TILLER
